

SUPERIOR DRYNESS FOR YOUR PATIENTS

HALYARD* Bed Protector

TRUSTED PROTECTION

FOR SURFACES & PATIENTS

SO YOU CAN CARE WITH CONFIDENCE

Your patients deserve to be dry and comfortable for whatever procedure or long-term medical condition they may experience.

OUR SOLUTION IS HALYARD* BED PROTECTOR

HALYARD* Bed Protector has a unique design, constructed from four layers: a surface layer of soft spunbond, a second layer of special absorbent core which incorporates Super Absorbent Material, and a double layered base with strong poly-coated cover that helps prevent strikethrough. Its the Super Absorbent Core with 4.9L capacity¹, that draws fluids away from the body, locking away wetness and odour, helping to keep patients dry² and protect surfaces by preventing leakage onto bedding and other equipment. The super absorbent core and strong poly coated backing³ work together to maintain excellent structural integrity when saturated. The soft, spunbond surface layer adds the finishing touch to provide patient comfort.

APPLICATIONS

- Continence aid
- Caesarean Section pad
- Stretcher sheet
- Draining pad to absorb excess fluids
- Used for any high fluid situations where there is risk of leakage onto bed or other surface
- Birthing

DEPARTMENTS
