

THICK, SOFT, ULTRA ABSORBENT CARE FOR PATIENTS AND INSTRUMENTS

HALYARD* Washcloth Extra

TRUSTED PROTECTION

FOR SURFACES & PATIENTS

SO YOU CAN CARE WITH CONFIDENCE

If you're using a reusable face washer as a washcloth, does your facility's laundering method effectively kill all the bacteria? How do you know whether the reusable face washer was previously used on the perineum or on the face? Are you looking for a product that is gentle, absorbent and disposable, that can provide your patients with hygienic care and help prevent the risk of cross-contamination?

When cleaning and drying instruments prior to sterilisation, you need a soft, absorbent cloth that is low linting and has good strength across wet and dry applications. Are you looking for a cloth that will soak up any excess fluid yet is soft enough on even your most delicate instruments?

OUR SOLUTION IS HALYARD* WASHCLOTH EXTRA

HALYARD* Washcloth Extra is an incredibly gentle, super absorbent and low lint washcloth^{1,2,3} that has been designed specifically for patient care and instrument cleaning and drying. It's thick, soft and absorbs up to eight times its weight in water², and is strong and durable enough to not tear easily⁴ in wet or dry applications. HALYARD* Washcloth Extra is disposable, so it helps reduce the risks associated with cross-contamination, making it the hygienic choice for patient and instrument protection.

APPLICATIONS

- Face and body washer
- Surface cleaning
- Cold cloth on patients' forehead
- Cleaning and drying instruments

DEPARTMENTS

- Wards
- Palliative Care
- Oncology
- Accident & Emergency
- CSSD
- Aged Care Facilities
- Allied Health

HALYARD* Washcloth Extra

- ✓ **SUPER SOFT¹**
Gentle on patients' skin
- ✓ **HIGHLY ABSORBENT**
Absorbs up to eight times its own weight in water²
- ✓ **LOW LINTING³**
Ideal for cleaning and drying instruments prior to sterilisation as lint can be a transportation mechanism for bacteria that cling to lint fibres⁴, transferring this to the patient and ultimately resulting in poor patient outcomes and prolonged hospitalization.
- ✓ **THICK & STRONG⁵**
Won't tear easily in wet or dry applications
- ✓ **DISPOSABLE**
Hygienic, helps prevent cross-contamination
