# INCONTINENCE CONFIDENCE MADE FOR EVERY BODY

**At Staydry, empowerment is more than a mission — it's the essence of who we are. We recognise that our products aren't something people want; they are something people need.**

Our products enable people to live confidently, fueling our commitment to not just serve but to uplift and support our community. Born from the visionary idea of integrating healthcare seamlessly into daily life, we've dedicated ourselves to transforming continence care into an experience that is both accessible and dignified without compromising on style.

Each product in our extensive range, from the essential bed pads to our comfortable underwear, is meticulously designed with three core principles in mind: unmatched comfort, exceptional functionality, and contemporary style.

By continuously exploring new materials, designs, and technologies, we strive to create products that exceed expectations. Staydry offers solutions that give our customers the opportunity to live with autonomy and unrestricted confidence.

We celebrate the ability to be yourself through our three Brand Attributes: **Function, Form, and Feeling.** Each aspect weaves through the fabric of our products and our mission, ensuring that we deliver not just solutions but a lifestyle.

FUNCTION

**Function** is where our journey begins, rooted in over 40 years of expertise and innovation. We pride ourselves on offering top-tier, healthcare-grade products that keep you dry and comfortable. Through skilled craftsmanship, technical advancements, and a steadfast commitment to quality, our products stand the test of time.

FORM

**Form** reflects our belief that functionality should never compromise style. As advocates for Australian-made quality, we focus on on-trend and purpose-built textiles and fashion. Our designs are thoughtfully created to enhance how our products look and the confidence our customers feel.

FEELING

**Feeling** encapsulates the confidence and freedom our products inspire. We embed sentiments of being unashamed, living freely, and enjoying life in every stitch. We want you to look great and feel better, offering peace of mind and unparalleled comfort. Staydry is about embracing your true self, encouraging you to step out and live your best life.

Pauline - Director

OUR STORY: FAMILY OWNED AND OPERATED

**Our journey began over 40 years ago with our family-owned business, Crystal Healthcare - a pioneer in supplying essential healthcare textile products to hospitals and aged care facilities.**

**In 2014, Pauline Ceddia took the reins with a new perspective. With fresh eyes on the business, she quickly realised that there was a need for washable continence products for people living at home. And with that, the Staydry brand was born.**

Fast-forward to today, and the family legacy continues to thrive with innovation and consistent growth. Our mission is to make continence care part of everyday conversations by offering products that not only provide the functionality you need but also bringing great designs that make you feel good.

For Pauline, running Staydry is about more than just business - it's about revolutionising incontinence care and caring for the planet with an environmentally sustainable range. We're here to empower people to live confidently, without compromise.

SUSTAINABILITY AT OUR CORE

**For the Earth, Actions Speak Loudest.**

**Sustainability isn't just a buzzword around here; it's the fabric of our existence. We've woven eco-conscious practices into every aspect of our business.**

Our products are designed to be washable, sustainable, and incredibly long-lasting, challenging the disposable culture in healthcare products. Focusing on innovative designs that blend seamlessly into everyday life, we're proud to stand as a beacon of change in our industry.

Our dedication to sustainability is unwavering. We're continuously exploring ways to reduce our environmental footprint, from our partnership with Upparel to recycle textiles to our shift towards recyclable packaging. Staydry's mission includes meeting the present needs and ensuring a healthier planet for future generations.
